WORK EXPERIENCE

Feb 2023 - Present
Multitracks.com | Austin, TX (Remote)
Junior Front End Developer

- Implemented restructures of the pricing flow for products, participating in design and scope meetings to determine the details of the work.
- Built out updated user interfaces and created logic for complex data-driven web pages
- Created ads for iOS applications to highlight new features
- Contributed and problem-solved in design and scope meetings for new projects
- Interacted with internal and external APIs to retrieve and save user information
- Collaborated with Back-End developers, product, and design peers to flesh out the most detailed and well-rounded approach to problems
- Participated in code review to improve the language and succinctness of code changes
- Completed QA testing for various bug fixes and website releases
- Helped to maintain the content and translations for 4 language versions of the website
- Implemented Google Analytics and Facebook Pixel Events to gain information about page views, user interactions and user information
- Worked with C#, SQL, HTML, TypeScript, jQuery, Vue, and SASS code to address UI and logic bugs

FEATURED PROJECT

The Composer Crawler | www.thecomposercrawler.com

- Designed as a tool for music students to quickly access essential information about popular composers.
- Created with HTML, CSS, JavaScript, React, and Supabase with data extracted from the Wikipedia API.
- Built by transforming unstructured data of 2022's most viewed composers from the Wikipedia API with JavaScript, then expanding and uploading the data into Supabase

SKILLS

Programming Languages

- JavaScript/TypeScript
- C#
- HTML
- CSS/Sass
- SQL

Libraries & Frameworks

- Vue
- React/Redux
- Angular
- jQuery
- Express
- Node.js
- Axios
- Bootstrap
- Tailwind

Design Tools

- Adobe Photoshop
- Figma
- Wix
- Adobe Illustrator
- Balsamiq

Databases

- Microsoft SQL Server
- MongoDB
- Supabase

EDUCATION

Bachelor of Music
Music Education & Performance
Abilene Christian University, 2015

Master of Music
Vocal Performance & Literature
Eastman School of Music, 2018

SELECTED COURSES

The Web Developer Bootcamp 2022
Front End Development Libraries
JavaScript Algorithms & Data Structures
Responsive Web Design
